PROJECTS

Weather Analysis

Jan 23 – Mar 23

- Directed the development of a real-time weather forecasting system leveraging Open-Weather APIs, delivering insights on temperature, humidity, and wind speed, ensuring accuracy and reliability for diverse users.
- Engaged with teams across functions to define project scope, gather user requirements, and establish milestones, ensuring alignment with user-centric goals for enhanced operational efficiency
- Implemented Agile methodologies to streamline project workflows, delivering on time and exceeding user expectations while maintaining detailed documentation and tracking key metrics to optimize performance.
- Ensured seamless delivery and user satisfaction, fostering a collaborative learning approach aligned with project's mission to revolutionize weather updates, aligning technical capabilities with dynamic stakeholder need.

Edu-Sphere Connect Hub

Dec 23 – Feb 24

- Conceptualized and developed Study-Notion, a seamless learning platform offering an engaging and accessible experience for students and instructors globally.
- Collaborated with cross-functional teams, leveraging Cloudinary and Markdown for optimized media and course rendering, aligning with learner and instructor needs.
- Applied agile methodologies to track key metrics, ensuring platform scalability, operational efficiency, and high-quality interactions, fostering a vibrant learning community.
- Utilized tools like Jira, Notion, and Slack for task tracking, milestone planning, and team coordination, ensuring on-time delivery and alignment with organizational goals.

EXTRA-CURRICULAR AND ACHIEVEMENTS

- Finalist, Idea-thon by VIT Bhopal: Recognized for innovative problem-solving and strategic ideation during a competitive event, showcasing critical thinking and effective collaboration skills. Participated in University level Ideathon (startup ideation challenge) where I represented (pitched) an innovative business idea in nutrition space and was the finalist. I conducted independent market research for the nutrition space.
- Worked for the content writing and social media and creative marketing of a Skin care startup Luvih manufacturing handmade soaps and perfumes.
- Finalist, INTACH Heritage Quiz: Achieved finalist status in an interschool-level competition, demonstrating strong research, analytical, and team collaboration abilities while promoting cultural and historical awareness.
